

The ***INSIDER EXCLUSIVE Investigative TV Show Series*** cover the issues that promotes justice and fairness for injured persons, safeguards victims' rights, and the opportunity to help guide the hands of justice – Especially when people's lives have been destroyed, families ruined, dreams lost, or widespread societal change and reform are needed.

Through our TV Shows we tell the stories of unimaginable pain, suffering, and great wrongs, but also of courage and faith and the dauntlessness of the human spirit. We take you inside the courtroom, examine the lawyers strategies, and the clients thoughts, and in vivid detail, we tell the often heartbreaking stories of these clients, dramatically demonstrating what motivated the Lawyers to fight for their clients cause.

Our TV Series show relief and vindication for shattered lives and seemingly lost souls. The compassion, warmth, love, and determination of the human spirit found within these shows are neither imagined nor contrived.

The Insider Exclusive Investigative TV Show Series™ is the ultimate destination for truly personal crusades and telling journeys of what it means to seek justice in an American Courtroom.
